

**Taste.
Quality.
Elegance.**

Three traits shared by William T. Baker and the custom homes he designs.

Baker is nationally renowned for creating what have been called "homes with a pedigree" – one-of-a-kind houses distinguished by commanding classical design, superior craftsmanship and unique architectural details.

Baker's timeless, sophisticated designs have appeared in magazines like *Southern Accent*, *Southern Living* and *Colonial Homes*. And he is one of a few select designers nationally to win the prestigious Arthur Ross Award in New York.

From understated elegance to breathtaking estates, Baker creates signature homes for special people.
